COMPETITIVE ADVANTAGES OF SYS DEV LTD.

Sys Dev Ltd. has successfully created strong market presence and built an impressive roster of corporate clients to deliver healthcare software services. Sys Dev Ltd. was among the first few IT companies in Bangladesh to aggressively differentiate our core competencies as well as go to the market approach for the portfolio of Healthcare services. The company's No. 1 corporate objective to develop and extend the thought leadership of its personnel dominates all aspects of Sys Dev Ltd.'s operations, from organizational structure to employee training, incentives and compensation to the methodology and tools it uses to spawn new offices and manage its clients.

Some of the key competitive advantages that Sys Dev Ltd. enjoys are:

- Use of standards based technologies, components, methodologies for integration, which support a faster deployment cycle and a lower-cost, pay-as-you-go pricing model.
- The innovative concept development and first-to-market advantage
- Over the last few years Sys Dev Ltd. has developed a unique model of service delivery to its customers. Our products and services demand that there is quite an extensive level of involvement with the customers.
- Sys Dev Ltd. practices the principles of account management throughout the life cycle of engagement with the customer. The process of buy-in starts quite early at the prospecting stage with the customer.
- Sys Dev Ltd. invests significantly higher number of hours in the pre-sales stage than its competitors Account management involves everyone from the pre-sales, sales, project team to post-sales support team.
- Faster response to customer queries and quick turnaround to customer problems has uniquely helped us retain and grow with the customers.

Recruiting Management System
